What are we going to talk about?

Please think of a short topic you would like to present or discuss.

I would like to start an internal lending library within our group. Please bring a list of the books on investing you have that you would be willing to lend within our group.

I will lead a short discussion on a **new concept**. I have been fascinated by The Wealth Conversion Efficiency Ratio.

The WCER is the ratio of your current total financial assets over the total income you have earned in your life. It is an interesting study in how efficiently you have run your financial life.

Do a rough calculation of your WCER before the meeting so you can enjoy the discussion.....Gordon

Thank you,

Gordon Robinson, gwrvmc@atmc.net
