6:00 pm MARKET/SECTOR OUTLOOK (Keith) - We will look at the current market & sectors to see where the market is today and where it is probably going in the Short, Intermediate and Long Term.

6:30 pm Projecting Returns over the 10 years (Keith) - Since we completed the 6 part series from January to June showing how the Market was very overvalued by historical terms, this month we project the type of returns you should expect. We will be looking back at history to similar times and use that history to project our current situation.
