with members on materials and
strategies that AAII offers.

The AAII Austin Chapter Presents...

Monday, May 23, 2016

ALGORITHMIC AND PROGRAM ANALYSIS AND TENDENCIES

Frank Ochoa

The Pivot Boss

Frank Ochoa, aka The
Pivot Boss, is an 18-year
trading veteran and author
of the book "Secrets of a
Pivot Boss" (311 Publishing,
2010).

Ochoa has spent 15 years
developing and deploy-
ing proprietary algorithms
for private and institutional
clients. He is the creator of
the PivotBoss Proprietary
suite of tools, which includes
PivotBoss Pivots and Pivot-
Boss Bands.

Ochoa is an elite market
forecaster, trader, algorithm
developer, educator and
speaker. You can follow his
work in his daily Premium
Trading Room and via his
PivotBoss Masters training
program for traders.

YOU WILL LEARN

- How to identify hidden prices so you
can find and trade high-probability
opportunities
- How to recognize future price momentum
ahead of the crowd
- How to spot the signatures and tendencies
of algorithms and programs so you can
profit from the impending moves

Algorithmic and program trading has made
an enormous impact on the markets in recent
years, especially with how traders engage the
market. Understanding how these algorithms
and programs work allows traders to trade
alongside the machines instead of against
them. Join Frank Ochoa, aka The Pivot Boss, as
we delve into a deep discussion of algorithmic
and program analysis and tendencies, which
will open your eyes to the hidden prices that the
machines trade.
