HOW TO GENERATE MONTHLY CASH FLOW AND BUY A STOCK AT A DISCOUNT

Alan Ellman
President, The Blue Collar Investor Corp.

YOU WILL LEARN
- The three required skills needed for option selling
- How to calculate our option-selling returns
- How to use options to protect portfolio profits

This presentation will focus on two low-risk option-selling strategies geared to generating monthly cash flow and buying a stock at a discount. Five actionable strategies will be discussed with information for both beginner and more advanced option traders: Covered call writing, selling cash-secured puts, the PCP (put-call-put) strategy, portfolio overwriting (leveraging our long-term buy-and-hold portfolios to achieve higher returns) and the zero-dollar collar.
